- If the heat index reaches 40°C of 41°C, classes will shift to limited face to face and other alternative learning modes.
- If the heat index reaches 42°C or higher, all face to face classed will be fully suspended, and learners will transition to other alternative learning modes.
- If the heat index differs from the forecast, adjustments to class arrangements may announced as necessary.

ii. The suspension of classes in higher education and private basic education institutions due to extreme heat index shall be at the school's discretion.
