Management Plans (LDRRMP) regularly review and test the plan consistent with other national and local planning programs;

WHEREAS, Section 2(e) of Republic Act No. 10121 provides that it is the policy of the State to develop, promote, and implement a comprehensive NDRRMP that aims to strengthen the capacity of the national government and the LGUs, together with partner stakeholders, to build the disaster resilience of communities and institutionalize arrangements and measures for reducing disaster risk, including projected climate risk, and enhancing disaster preparedness and response capabilities at all levels;

WHEREAS, Section 3(d) of the IRR provides that it is the policy of the State to adopt a disaster risk reduction and management approach that is holistic, comprehensive, integrated, and proactive in lessening the socioeconomic and environmental impacts of disaster including climate change, and promote the involvement and participation of all sectors and all stakeholders concerned, at all levels, especially the local community;

WHEREAS, an operations center is a centralized facility that supports the management and coordination of activities, military operations, or emergency response scenarios. This center serves as a hub for data collection, analysis, and decision-making, ensuring that operations are conducted efficiently and effectively. Within a military context, operations centers play a crucial role in strategizing missions, managing logistics, and responding to real-time information. In the corporate world, it may oversee supply chain management, customer service, or technical support activities. The operations center is equipped with various communication and monitoring tools to ensure seamless information flow and rapid responses to changing conditions. It is essential for maintaining situational awareness and operational readiness in environments where timing and coordination are critical;

WHEREAS, a **24/7 operation center** is crucial during natural disasters, or large-scale events where there is a need for real-time coordination and strategy implementation;

WHEREAS, the Municipal government of Los Banos has several offices/units created for the purpose of providing various public services to its constituents in the maintenance of peace and order and public safety however in separate locations affecting coordination;

WHEREAS, the new administration has prioritized the establishment of a centralized operation center to further enhance and strengthen the peace and order and public safety program of the municipal government;

WHEREAS, one of the mandates of the Bureau of Fire Protection is to respond to man-made and natural disasters and other emergencies, thus the Los Banos Fire Station submitted a request to the previous administration and further reiterated the same request during the Third Quarterly Meeting of the Municipal Peace and Order Council for the procurement of one (1) rescue vehicle under a cost-sharing scheme to beef-up its response action;
